

To supply pe900 systems via the cross connector from device to device

Type:	Switched-mode power supply
Output voltage:	24V DC
Output power:	60W (continuous operation) / 70W (short time duty)
Supply voltage:	100V - 230V 50-60Hz (multi range power pack) via front terminal
Efficiency typical:	> 85%
Ambient temperature:	5°C - max. 35°C
LEDs:	1 LED for operation indication
Installation:	Norm mounting rail EN60715
Installation position:	Vertical (ventilation holes have to be on top)
Protection grade:	IP20
Casing:	Plastic
Cooling:	Fan
Dimensions (W x H x D):	45 x 100 x 115mm
Weight:	300g

Technical equipment, design and features: subject to change! For further information please contact plating electronic GmbH.
