

To connect more than one digital Power Supply with peRB interface to the pe900 system.

Type:	peRB Switch
Interface:	1 x peRB input 1 x peRB output (to cascade several switches) 6 x peRB outputs for power supplies Internal bus system on cross connector from device to device (C-bus) (at the last module is a bus terminator for the internal bus system required)
Supply voltage:	24V DC +/- 10 %
Current input:	130mA
Ambient temperature:	0°C - max. 40°C
LEDs:	1 LED to display "data send" at the pe RB bus system 1 LED to display "data receive" at the pe RB bus system 1 LED to display a further switch 1 LED to display the further switch is communicating
	For every pe RB output: 1 LED to display a connected power supply 1 LED to display the connected power supply is communicating
Installation:	Norm mounting rail EN60715
Installation position:	Vertical (see picture)
Protection grade:	IP20
Casing:	Plastic
Cooling:	Convection
Dimensions (W x H x D):	45 x 100 x 115mm
Weight:	250g

Technical equipment, design and features: subject to change! For further information please contact plating electronic GmbH.
